

Sun UK Complementary Products has established long-term relationships with key best-of-breed technology vendors allowing us to provide you with access to a wide range of products complementing and adding value to Sun solutions. Available through the same channels as other Sun products, Complementary Products are supported and maintained by Sun Support Services and now comply to RoHS (Restriction of Hazardous Substances) standards.

## SYSTEM MANAGEMENT & PERFORMANCE

Rack Mounted Monitor  
and  
Rack Mounted Terminal

Advanced Integrated Monitoring  
System (AIMS)

Console Server & Keyboard,  
Video, Mouse switch (KVM)

Virtual Tape Library  
VTL-Value

## SYSTEM AVAILABILITY

Course Wave Division  
Multiplexing (CWDM)

14" Sun Ray Laptop Ultra  
Thin Client

Network Switches

Auto Power Transfer Switch

UPS, Power Distribution  
and ROMF Metal Flooring

## 1U Rack Mounted Monitor and Keyboard

- 17" colour LCD monitor, keyboard and trackball that locates within any rack, taking just 1U of space
- Suitable for deployment in computer room and military (airplane/ship/land) environments
- Resolution up to 1280x1024, compatible with Sun and VESA graphics standards
- USB keyboard includes Sun specific keys and three button trackball
- DC and 400Hz power options available upon request for Telco and military applications
- Product Code UKT-R1U-LCD17-SU-Z, for more information go to: <http://uk.sun.com/products/complementary>

- 17" colour LCD VT compatible general purpose terminal that locates within any rack, taking just 1U of space
- RS232 or Ethernet host interface
- Can be used with any Sun server and is ideal for servers with no graphic capability
- Able to connect to multiple servers when used with a Console Server or Ethernet Switch
- DC and 400Hz power options available upon request for telco and military applications
- Product Code UKT-R1U-TERM-17-Z, for more information go to: <http://uk.sun.com/products/complementary>

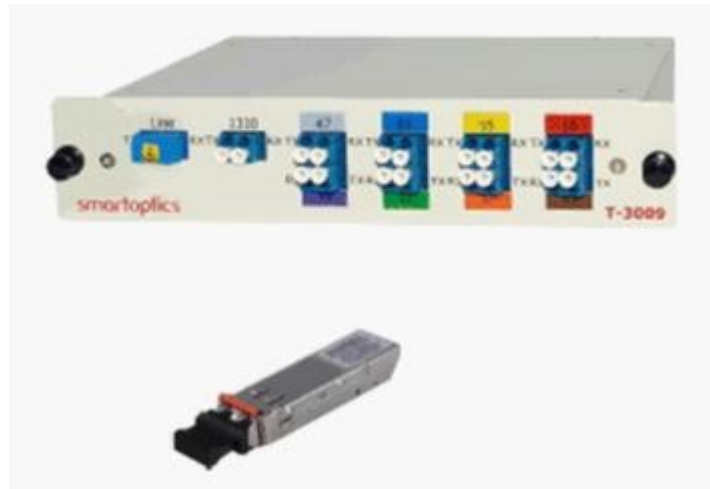

- Three models – 8, 16 or 32 port 1U – Cat5 cable structure KVM
- Supports servers with either: DVI and USB, VGA and USB or VGA and PS2 Monitor, Keyboard and Mouse interfaces
- Supports Consoles with VGA and USB Monitor, Keyboard and Mouse interface
- Can be cascaded to support a maximum of 256 servers from the one Monitor, Keyboard and Mouse
- Autoranging internal power supply
- For more information including product codes, go to: <http://uk.sun.com/products/complementary>

- Remote secure management of any server or IT equipment that supports a console or serial management port
- In-band (network) or out-of-band (terminal or modem) connections supported
- Supports a variety of workstations, servers, LAN/WAN components, and management systems
- Fully configurable with built in security
- Available in 8, 16, 32 and 48 port versions, all rack mountable in 1U of rack space
- Redundant and DC power versions available
- For more information including product codes, go to: <http://uk.sun.com/products/complementary>

- 1U unit, 2TB or 4TB capacity, 1 drive 24 slot emulation
- 4U unit 8TB, 16TB or 24TB capacity, 2 drive 100 slot emulation
- Dual 1Gb iSCSI interface as standard
- 4U model has optional Quad 1Gb iSCSI, Dual 10Gb iSCSI, Single or Dual 4Gb FC interfaces
- 4U model has optional 6 drive, 500 slot emulation or Multi-library license upgrade
- For more information including product codes, go to: <http://uk.sun.com/products/complementary>

- Passive device requiring no power source
- 150 meter to 80 km distances
- 8 wavelengths multiplexed onto a single fibre
- Easily installed, no configuration necessary
- For more information including product codes, go to: <http://uk.sun.com/products/complementary>

- 14.1" (1280x800) TFT colour LCD
- UK Keyboard and two button touchpad
- 10/100 Ethernet and 802.11a/b/g Wireless and 3G
- SmartCard reader, 3x USB2 ports, VGA port
- Fully compatible with Sun Ray Server 3.0 (or later) software on SPARC or x86
- For more information including product codes, go to: <http://uk.sun.com/products/complementary>

- 1U Rack or desk mounting managed layer 2+ Ethernet Switches
- 24 port (24x 10/100TX and 2x Expansion-bay) stackable switch
- 24 port (20x 1000T and 4x SFP-ports – shown above) gigabit switch
- Non-blocking and wirespeed
- Integrated management agent providing embedded web server, SNMP, RMON, console telnet capabilities
- For more information including product codes, go to: <http://uk.sun.com/products/complementary>

- Increases availability of systems with an odd number of power supplies when powered by dual utility power grids
- Connects to two power grids and provides assured output in the event of one of the incoming grids failing
- 1U rack mounted, compatible with both StorEdge 72" and Sun Rack 900/1000 cabinets
- Ideal for V880/V890 servers
- Includes engineer installation service
- Product code UKT-R1U-ATS-Z, for more information go to: <http://uk.sun.com/products/complementary>

## Uninterruptible Power Supplies (UPS)

- Provide support for servers and peripherals in the event of a utility power failure
- Server shutdown in the event of extended utility power outage (Solaris, Linux and Microsoft Windows)
- Online technology provides full time clean, regulated power to servers and peripherals
- Complete range available – 700 watts to 80K watts, 8 minutes to 40 minutes run time
- For more information including UPS sizing and product codes, go to: <http://uk.sun.com/products/complementary>

## 16 Amp to 32 Amp Adapter

- Adapts two 16A sockets to one 32A plug
- Allows equipment with IEC309 16A power plugs to be connected to IEC309 32A sockets
- Ideal for Sun Rack 900 and Sun Rack 1000 installations where only 32A power supplies are available
- Includes dual thermal power breakers to protect the 16A feeds against overload
- Product code UKT-PWR-16A-32A-Z, for more information go to: <http://uk.sun.com/products/complementary>

Power Distribution Products to assist in installing M-Series and SunBlade-Series servers into existing racks

- 16Amp IEC320-C20 input to 4x 16Amp IEC320-C19 sockets
- 32Amp IEC309-32A input to 4x 16Amp IEC320-C19 sockets
- 32Amp IEC309-32A input to 4x 16Amp IEC320-C19 plus 20x 10Amp IEC320-C13 sockets
- Rack Mount Kit to hold up to four UKT-PWR-32A-MIX devices available
- For more information, go to: <http://uk.sun.com/products/complementary>

DC Power Distribution Products to assist in installing Netra servers and Storage into existing racks

- Models:
  - Dual Redundant 100Amp @ -48VDC Input – Total 100Amp load support
  - Dual Non-Redundant 100Amp @ -48VDC Input – Total 200Amp load support
  - Dual Non-Redundant 200Amp @ -48VDC Input – Total 400Amp load support
- Each with:
  - Sixteen 1Amp to 15Amp @ -48VDC Outlets GMT Fused
  - Eight 15Amp to 50Amp @ -48VDC Outlets TPA Fused

**Note: Must specify fuse rating at time of ordering**
- For more information, go to: <http://uk.sun.com/products/complementary>

- Provide support for M8000 and M9000 server installations allowing maximum airflow and cable access without compromising the stability of the raised flooring
- Additional Heavy Load Support available where the raised flooring or its pillars are spec'd at lower than 1Tonne/Sq. mtr. or the pillars do not have "stringers" between them.
- Engineer installation options available
- Products Codes: UKT-ROMF-M8000-Z, UKT-ROMF-M9000-Z and UKT-ROMF-HLS-Z
- Installation Codes: UKT-ROMF-INST (weekday) or UKT-ROMF-WE-INST (weekend and bank holidays)
- For more information, go to: <http://uk.sun.com/products/complementary>

- Monitors computer room environment for:
  - Temperature
  - Humidity
  - Water ingress
  - Intrusion
  - Voltage (AC and DC)
  - Power
- Web configuration and live monitoring
- Alerts sent via LEDs, Sounder, Beacon, Email, SNMP, syslog, Voice dialer, GSM SMS Modem
- Engineer installation options available
- For more information, go to: <http://uk.sun.com/products/complementary>
